

**Response to Additional Queries of Bidders to the Request for Proposal (RFP)
“Consultancy Services for System Integration of R&BD IT/ICT Applications”**

S. No.	RFP Reference	Query	Response
1.	Information Regarding R&BD WMS	Web server software and version + OS version	Apache httpd 2.4.x and CentOS
2.		Application server software and version + OS version	Apache httpd 2.4.x and CentOS
3.		Database server software and version + OS version	Postgres 9.6.x and CentOS
4.		Current interface mechanism for the applications	Web interface
5.		Type of API level interface - REST/SOAP	REST and SOAP
6.		Whether DB level ETL will be available in order to fetch the data from the above mentioned application	No
7.	Road Mitra and e-RAP tools developed by BISAG	Type of API level interface - REST/ SOAP	SOAP
8.		Integration with GujRAMS	GujRAMS consultant is already on-board and its development period is 18 months and 36 months operation support. System Integrator needs to integrate GujRAMS as well. Development of both will go in parallel and SI has 36 months of maintenance period after 12 months of development phase. The bidder should plan accordingly and if required GujRAMS integration should be done during maintenance period as part of the scope only.
